

## **Project Name**

Heritage in Pixels (MINI TUT)

---

## **Project Idea**

Mini TUT is a creative, child-focused experience designed to transform heritage visits into playful learning adventures. Built as a dedicated kids' zone at Philae Temple, the project turns Egypt's ancient stories into interactive games, puzzles, and guided discoveries. While parents explore the site freely, children engage in a safe, educational world led by the character Mini TUT and his wise cat companion. The project aims to bridge the gap between cultural tourism and children's engagement—making history feel alive, accessible, and unforgettable through play.
